This issue is for the Week 5 README peer test and sign-off

README:
<https://github.com/MohammadYousef-001/Personal-Expenses-Tracker/blob/main/README.md>

please clone the repository into a fresh folder and follow only the README instructions:

clone the repository

install the project

run the MCP server

open MCP Inspector

make one successful tool call

After testing please leave a comment on this issue confirming whether everything worked and roughly how long it took to get the first successful tool call

Hi Baraa and Mohammad,
Yes i tested it using only the readme.

The readme was very detailed maybe even a little too detailed haha but it was clear and easy to follow.

i was able to clone the project install everything run the mcp server open mcp inspector and make a successful tool call.

Everything worked correctly and i did not need any extra help.

It took me around 5 minutes to get the first successful tool call.

Results

```
{
  "success": true,
  "expense": {
    "id": "8406e443-fa72-4b84-bb63-078494fa7923",
    "amount": 300,
    "category": "bills",
    "date": "2024-08-17",
    "description": "red malboro cigarettes "
  }
}
```
